The United States Environmental Protection Agency  
Announces an Information Meeting for the  
SALFORD QUARRY SUPERFUND SITE  
Lower Salford Township, Pennsylvania

The United States Environmental Protection Agency (EPA) announces an information meeting to discuss the current activities at the Salford Quarry Superfund Site, located in Montgomery County, Pennsylvania. Recent developments at the site include detection of high boron levels in samples of several nearby residential wells during the Remedial Investigation.

EPA will host a public meeting to answer health and site-related questions on Wednesday, November 20, 1991 at 7:30 p.m. at the Lower Salford Township Office at 474 Main Street, Harleysville, Pennsylvania, (215) 256-8087.

Site-related documents, contained in the Administrative Record File are available for review at:

Indian Valley Public Library  
100 East Church Avenue  
Telford, PA 18969  
(215) 723-9109

U.S. EPA Docket Room  
841 Chestnut St. (3HW01)  
Philadelphia, PA 19107  
(215) 597-3037

Questions about the meeting or other activities at Salford Quarry Superfund Site should be directed to:

David Sternberg, Community Relations Coordinator  
U.S. EPA (3EA21), 841 Chestnut Street  
Philadelphia, PA 19107  
(215) 597-2447
